

# COOL™ Retractable Screen Door

## Product Description

COOL™ Retractable Screen Doors offer homeowners a fresh approach to traditional screen doors. Like hinged screen doors, COOL allows fresh air to circulate into the home, but without all the banging and slamming and in-the-way hassles of a traditional hinged screen door. COOL's full-view screen also fully retracts when not in use so it doesn't get in the way.

COOL is smartly designed with ease of installation in mind. No metal cutting is required and only a power screwdriver is needed to install five components in only 30 minutes. COOL will install on all sill types and will adjust to fit door widths of 32 to 36 inches without cutting metal.

## Key Benefits

### If you have 30 minutes, we have the solution.

- Installs in 30 minutes or less
- Adjusts to fit door widths of 32" to 36" without cutting metal
- Installs on all sill types – flush, short and long
- Adjusts easily to a left or right hand application
- One tool required – power screwdriver
- Only 5 components to assemble

### Designed to last.

- Limited Lifetime warranty
- Powder coated aluminum housings and tracks
- All paints and resins include UV inhibitors
- Durable fiberglass screen mesh

### More gliding. Less slamming.

- Spring tension is 40% less than other screens
- Easy one-handed operation
- Mechanical latch and lock
- Smooth retraction speed with no banging
- Screen retracts all the way without assistance
- Ergonomically designed latch/lock handle

### Durability has never been so beautiful.

- Screen retracts out-of-sight when not needed
- Face-mount installation creates pass-through space
- Housing design blends into brick mold
- 3 Colors available – White, Bronze and Sandstone (Slider white only)
- Subtle safety strips provide faint visual cues to help prevent walk-through
